Ms. Barbara Schmidt graduated in Administrative Sciences and worked for 40 years as a civil servant. She hails from Ruhr area, Germany, and there and all over the world she has been on the road with her Fuji XT2 since 2014. As a self-taught photographer with various interests in photography, she does not visit places with some specific pictures in mind. And comes back with pictures of common subjects presented in her own unique point of view. This approach has helped her beat the stereo-type and come up with unique and successful images. Shapes, lines and colors presented in everyday life interests her, special in genres Architecture, Landscape, People, Nature, Travel, Street and Animals. Since 2016 she has won more than 800 awards and 8000 recognitions, her images are shown in many countries worldwide. Since 2019 she also has been a member of jury in more than 300 sections in international Salons.

**Peljhan Matej**, EFIAP, Slovenia

Matej Peljhan (1967) lives in Ljubljana, Slovenia. At the age of 10, while playing with his friends, he experienced a severe accident with some explosive devices, scattered around during the World War II. He suffered numerous injuries, the most severe being the loss of his right arm and an eye. He takes photos in an unusual way – because he can only manage a camera with his left hand, the camera needs to be turned upside down. He is a clinical psychologist by profession and works as a psychotherapist. He holds the title Master of Photography, which is the highest title you can obtain in Slovene photography. He published his work in monograph titled Fotografije/Photographies (2012) and he is the co-author of the book Za-govor podob - philosophy of photographic gaze (2011). His photos, interviews and features about him have been published and presented in numerous media across the world. His biggest success was the 2013 series called The Little Prince, which went viral. The photos have been pronounced as some of the most touching photos ever taken. The following year he was as screenwriter and director for the short film with the same title and received the award Vesna at the main national film festival. Due to his personal and professional ambitions he strives to bring photography as close as possible to the people with special needs. He has cofounded The Institute of photographic therapy where he offers workshops, educates others in the field of the photographic therapy and publishes professional articles. In 2015 he was the editor of the book called Phototherapy – from Concepts to Practices, which was published in English as well.
