**Papic Nevenka**, Slovenia

Born in 1956 in Ljubljana, Slovenia. Studied foreign languages at the University of Ljubljana, spent some time in Paris and Oxford and, later in life, besides English, French and German, started learning Spanish and Italian on her own. She still keeps saying that Slovenia is a small country and as such, in order to prosper as a nation, it has to be open to the world. She has been a literature enthusiast since her childhood and now, after retirement, she still loves taking a good book in her hands. But her greatest passion besides books and spending time with her five grandsons, is photography, a hobby she has been pursuing for the last 15 years. As a self-learner in photography, she started reading several photographic magazines and searching for information on the internet. She became a member of DF Svit, one of the most prestigious photographic clubs in Slovenia and soon afterwards started sending photos to different international photographic competitions. Since then she has received over 200 awards worldwide. In the meantime she has become a member of Digitalni Foto Klub and has, so far, received a EFIAP/b title. As an avid traveller around the globe and with a camera in her hands she seeks beauty of the world, tries to find the most amazing wonders of the natural world, be it landscape or animals; she loves urban scapes and street photography and loves capturing people in their environment, thus sharing her visions and her stories.

**Radovanovic Radenko**, F1 FSS, Serbia

Born in Cacak in 1959, where he finished high school. In 1978. entered the world of photography, where he stayed to this day. Within FKK CACAK work on educating young members and participate in domestic and international photo contests

FIAP BLUE BADGE

CHAO LING JYI

I am a Christian. I have always believed that the world created by God is completely beautiful, but because humans are limited, the eyes cannot see it completely, so God made people invent the camera, which is the third eye of man. Through the lens, people often see the beauty that is not normally seen in the world.
